

Executive Summary

MamChef is a platform that connects home chefs with food lovers. We provide a platform for chefs to sell homemade meals while offering customers a unique alternative to restaurant takeout. Our business focuses on convenience, authenticity, and affordable prices.

The Problem & MamChef's Solution

Lack of access to fresh, authentic and homemade meals.

Limited platforms for home chefs to monetize their skills.

Consumers seek healthier, homemade food but lack reliable options.

MamChef connects customers with home chefs offering freshly prepared home-style food.

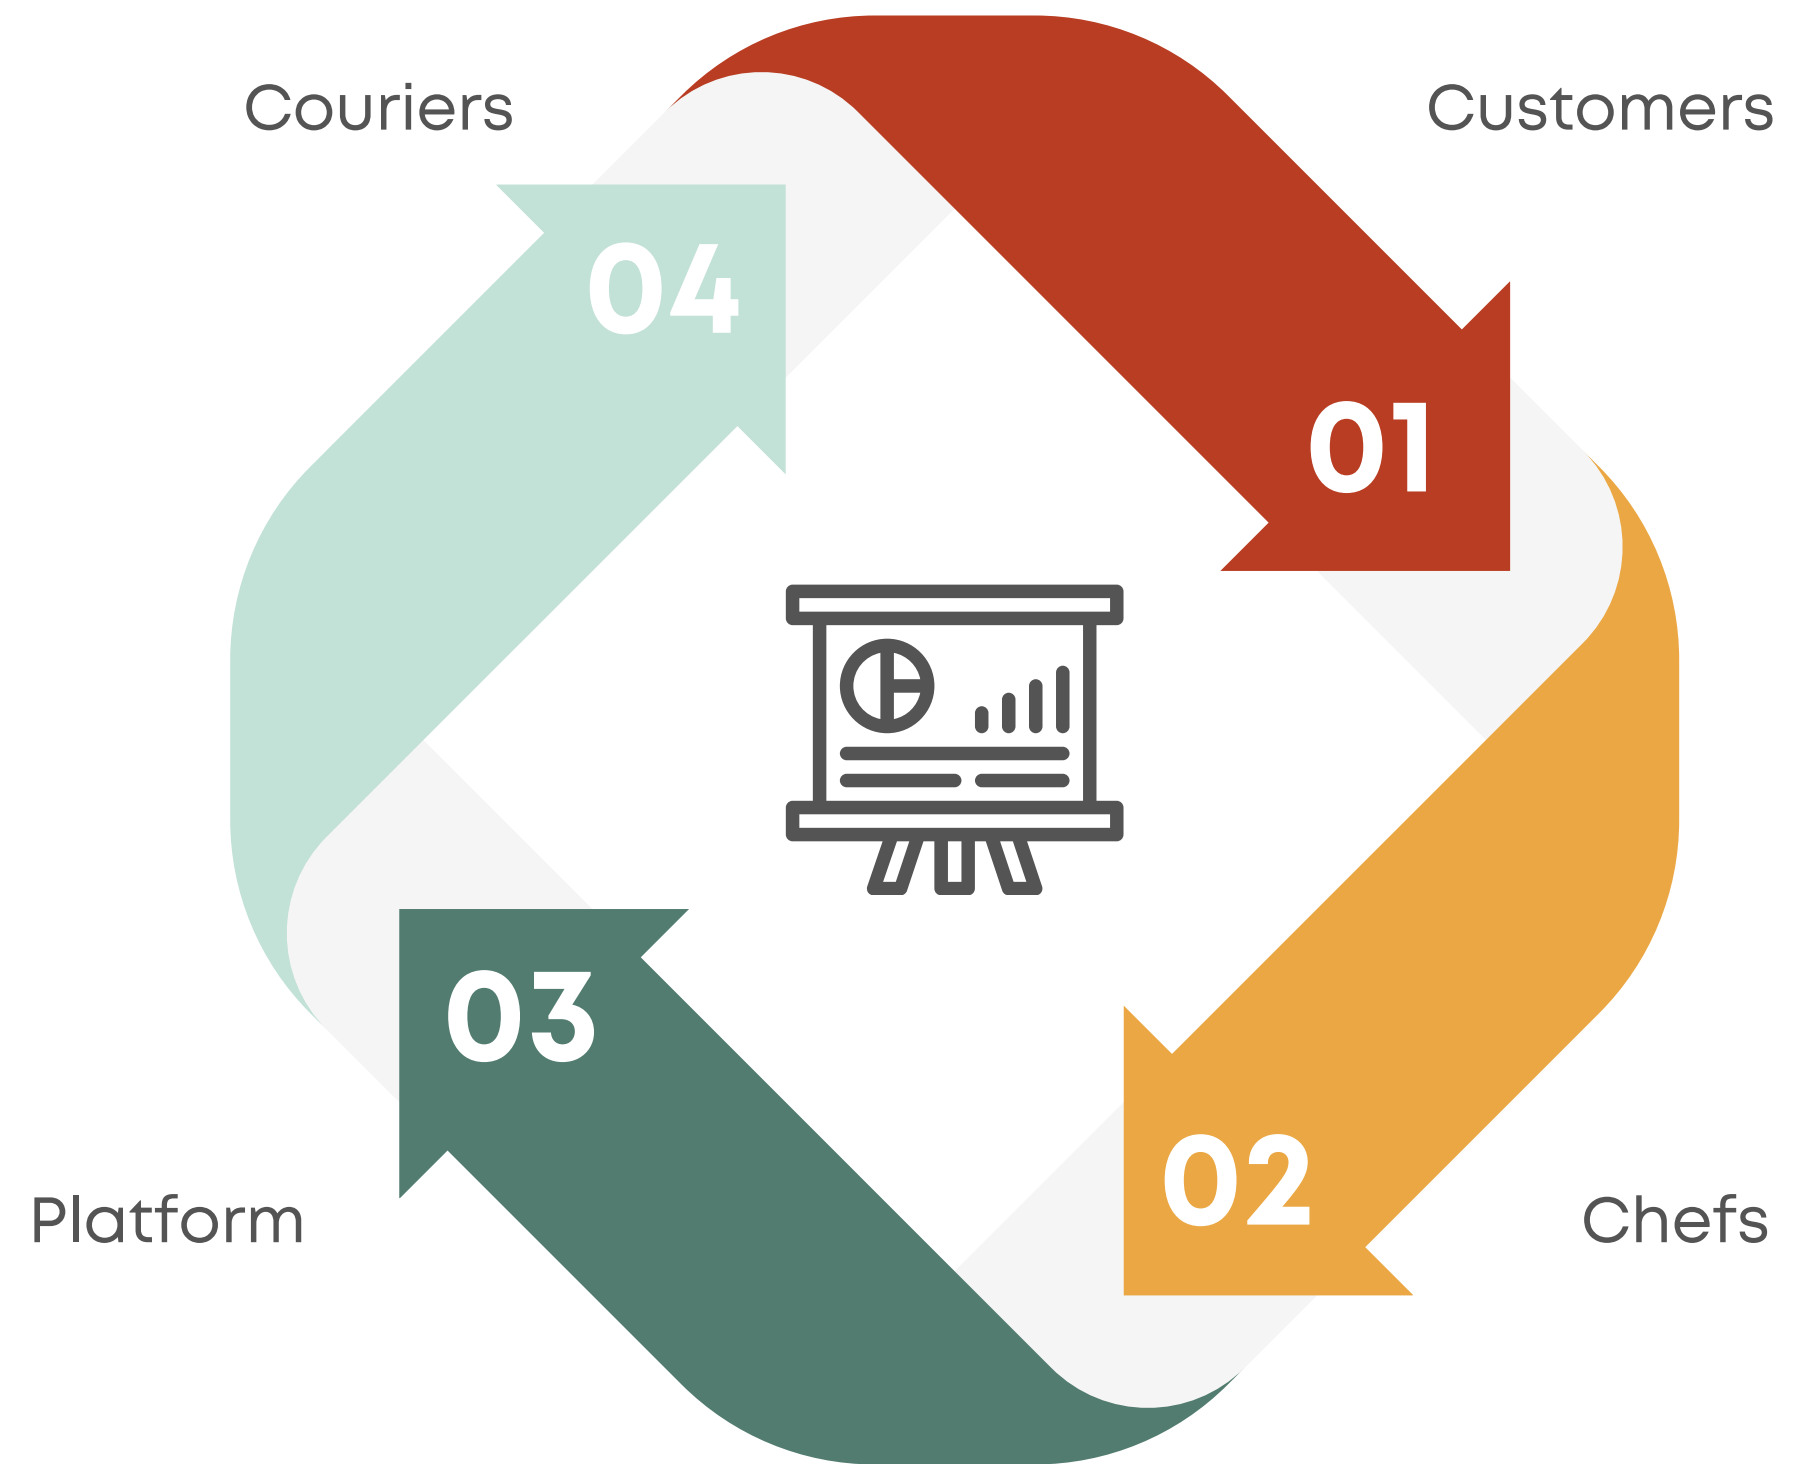

MamChef provides a platform, enabling home chefs to sell easily and grow their small businesses.

MamChef offers a safe, direct, and easy way to order homemade food at affordable prices

How MamChef Works

Steps:

1. **Customers:** Browse nearby chefs and their menus.
2. **Chefs:** List their meals, set prices, and connect with the community.
3. **Platform:** Customers place an order and select the delivery method.
4. **Couriers:** Pick up directly from the chef and deliver to customer.

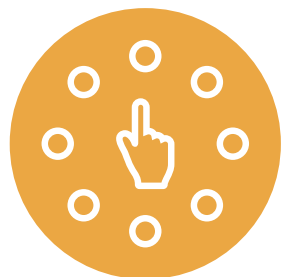

Why MamChef?

Community Driven:
Strengthen connections
in your neighborhood.

Fresh & Homemade: Meals
made with authentic
recipes and care.

Variety: Diverse
cuisines to suit every
taste.

Support Local: Empower
small businesses and
local chefs.

Our Roadmap

Our strategic roadmap outlines the key phases of MamChef's growth, from initial platform launch to scaling and expansion. Each phase is designed to enhance our services, improve user experience, and drive sustainable growth.

Phase 1: Platform Launch

- Onboard the first 30 chefs
- Launch in limited areas in Vilnius
- Initial marketing push

PHASE 2: EXPANSION

- Expand to other areas
- Develop mobile app

- Introduce delivery partnerships
- Launch in other cities

PHASE 3: SCALE

- Expand internationally
- Launch additional services like meal subscriptions

PHASE 4: FLY AND BEYOND

Growth Plan

Year 1: Chef acquisition, customer awareness, platform setup.

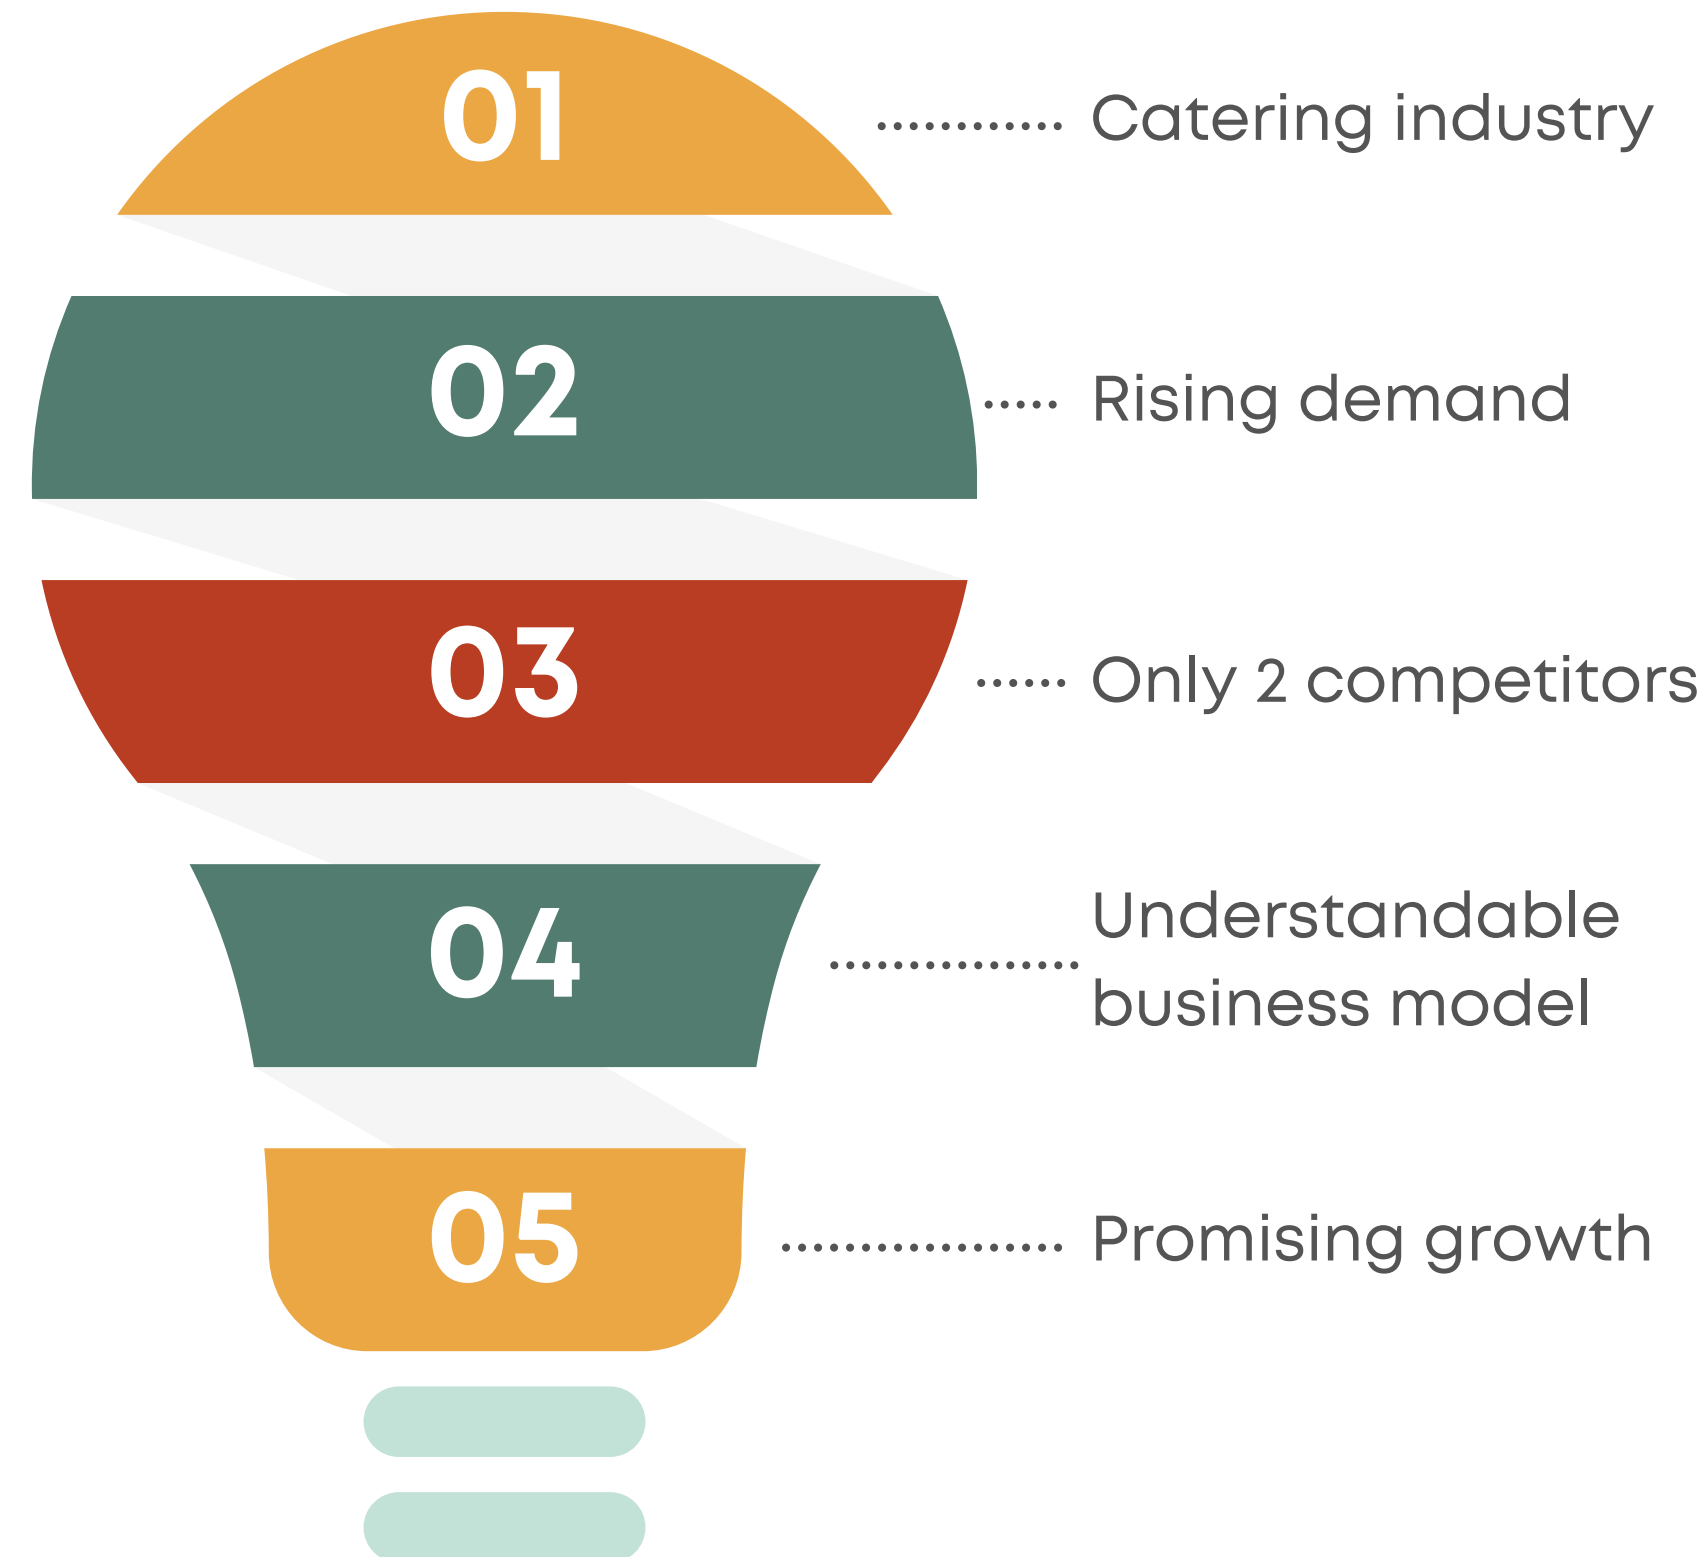

- * Monthly Growth: +10% chefs, +15% orders.
- * Revenue Target: €250,000.

Year 2: Expand to other Lithuanian cities, start MamChef delivery.

- * Monthly Growth: +15% chefs, +20% orders.
- * Revenue Target: €400,000.

Year 3: Enter Baltic markets (Latvia, Estonia), launch mobile app.

- * Monthly Growth: +20% chefs & orders.
- * Revenue Target: €600,000.

Financial Management & Revenue Split

Revenue Model:

- MamChef takes a percentage of each transaction.
- Three revenue splits based on delivery method:
 - Customer Pickup: 75% Chef / 25% MamChef
 - Chef Delivery: 75% Chef / 25% MamChef (+3 Eur for delivery)
 - Future Courier Delivery: TBD% Chef / TBD% MamChef / TBD% Courier Service

Payment Frequency:

Weekly settlements to ensure smooth cash flow for chefs.
